CREATE SHELVING FOR RETAIL DISPLAY

Practical, stylish wall storage for retail and point-of-sale display

DESIGN BRIEF

Create Shelving glass shelving solutions provide contemporary retail and point-of-sale display. This highly-versatile glass shelving solution provides ideal wall and corner display for small, light products. The display units in clean contemporary glass lines complement any retail environment.

Create Shelving and Create Corner are stylish, practical, easy to assemble solutions designed in the UK by glass furniture specialists. We've designed the range so you can create your displays in many different ways and we give you a choice of styles, widths and arrangements. The spacious shelves

are made from polished safety glass to BS 6206A for safety and long life.

Like other glass storage units from Futureglass, Create Shelving and Create Corner glass shelving units offer an innovative solution that isn't just versatile, it's also great to look at. The glass and satin nickel finished components create a minimal appearance and the cleanest lines of any glass wall shelving units on the market. You can order Create Shelving and Create Corner glass shelving solutions in clear, coloured or frosted glass to suit any retail design scheme.

Create Shelving, like other glass contract furniture from Futureglass, is a superb example of contemporary British design, manufactured in the UK.

CHOOSE YOUR OPTIONS

Create Shelving is available as a standard unit in a choice of three sizes. Create Corner is available in two sizes. You can also order an optional frosted or coloured glass finish.

CUSTOMISE... DIFFERENT SIZES, COLOURS

If you want even more choice, we can customise Create Shelving units with different sizes, colours, finishes or materials.

Ask your dealer for more details.

*Also look at our Favoured Media shelves.

GEM CINEMA

Innovative vibration-managed support for conference room audio-visual systems

DESIGN BRIEF

This modular audio-visual storage solution provides innovative, vibration-managed support for plasma screens, televisions, cinema systems and other audio-visual equipment and components. GEM Cinema glass and stainless steel audio-visual racks provide versatile support for all audio-visual components used in the conference room or reception area, and are designed to take sound and visual performance even further.

With GEM Cinema you get an innovative solution developed by glass furniture specialists who really understand audio-visual performance. Precision-engineered components and an innovative push-fit system effectively smother vibration to give a solution that is technically advanced and great to look at. The stainless steel and glass

components create a minimal appearance and the cleanest lines of any audio-visual support system on the market.

With an extensive choice of shelf heights, you can create any configuration you like and you don't have to worry about fasteners. The top shelf has an option of space for centre speakers. Each 10 mm polished safety glass shelf is supported by stainless steel columns which fit over stainless steel bosses bonded onto the glass. The bosses and supporting columns are isolated from each other by a double set of vibration-deadening O-rings, creating a sturdy platform with no room for movement between components. Adjustable glider feet make it easy to level the unit if the floor is uneven or move it, even when it's fully loaded.

GEM Cinema, like other glass contract furniture from Futureglass, is a superb example of contemporary British design, manufactured in the UK.

CHOOSE YOUR OPTIONS

You can order GEM Cinema units with a choice of shelf heights.

CUSTOMISE... DIFFERENT SIZES, COLOURS

If you want even more choice, we can customise GEM Home Cinema units with different sizes, colours, finishes or materials.

Ask your dealer for more details.

GEM CORNER SUPPORT

Innovative space-saving support for conference room audio-visual systems

DESIGN BRIEF

GEM Corner Support provides innovative, vibration-managed support for plasma screens, televisions, cinema systems and other conference room audio-visual equipment in areas where space is at a premium. Glass and stainless steel audio-visual racks provide versatile, space-saving support for all audio-visual components and are designed to take sound and visual performance even further.

If you want to make best use of your room space, GEM Corner Support gives you an innovative solution developed by glass furniture specialists who really understand audio-visual performance. Precision-engineered

components and an innovative push-fit system effectively smother vibration to give a solution that is technically advanced and great to look at. The stainless steel and glass components create a minimal appearance and the cleanest lines of any audio-visual support system on the market.

With an extensive choice of shelf heights, you can create any configuration you like and you don't have to worry about fasteners. GEM SLENDER SCREEN SUPPORT

Innovative support for audio-visual systems and plasma screens

DESIGN BRIEF

This modular electronics storage solution provides innovative, vibration-managed support for smaller plasma screens, televisions, cinema systems and other audio-visual equipment. GEM Slender Screen Support glass and stainless steel audio-visual racks provide versatile support for all your smaller audio-visual components and are designed to take sound and visual performance even further. With GEM Slender Screen Support you get an innovative solution suitable for both European and American sound box formats, as well as plasma screens.

The support system was developed by glass furniture specialists who really understand audio-visual performance. Precision-engineered components and an innovative push-fit system effectively smother

vibration to give a solution that is technically advanced and great to look at. The stainless steel and glass components create a minimal appearance and the cleanest lines of any audio-visual support system on the market.

With an extensive choice of shelf heights, you can create any configuration you like and you don't have to worry about fasteners. WALL MOUNTED PROJECTOR SHELVING

Vibration-free glass shelving for audio-visual equipment

DESIGN BRIEF

Wall Mounted Projector Shelving provides practical, vibration-managed support for projectors and other conference room audio-visual equipment. Glass and stainless steel shelving provides technically-advanced support for delicate wall-mounted equipment and is designed to give you great performance. This stylish, high-performance audio-visual storage solution from Futureglass features engineered components and an innovative vibration-deadening fixture to optimise audio and visual performance.

Wall Mounted Projector Shelving is designed in the UK by glass furniture specialists who really understand sound and vision. To manage vibration, Wall Mounted Projector Shelving features vibration-minimizing fixtures at the interface between wall and shelf, which helps to optimise performance. You can

use this versatile wall-mounting unit as a high-performance alternative to ceiling mounting for components such as projectors.

Like other audio-visual storage from Futureglass, Wall Mounted Projector Shelving offers an innovative solution that isn't just technically advanced; it's also great to look at. The stainless steel and glass components create a minimal appearance and the cleanest lines of any home entertainment shelving solution on the market. This space-saving contemporary design looks great in any conference room.

The larger shelf style is designed for strength, performance and style using toughened 10 mm safety glass to BS 6206A, with stainless steel components to give optimum support to your components. You'll find Wall Mounted Projector Shelving is easy to install and you can attach it to a solid wall in just

minutes to create a versatile storage solution. The wire loop retaining system makes it easy to level shelves, even if the brackets are not installed perfectly level.

Wall Mounted Projector Shelving, like other glass contract furniture from Futureglass, is a superb example of contemporary British design, manufactured in the UK.

CHOOSE YOUR OPTIONS

Wall Mounted is available as a standard unit in a choice of five sizes. You can also choose frosted glass for the shelves.

CUSTOMISE... DIFFERENT SIZES, COLOURS

If you want even more choice, we can customise Wall Mounted Projector Shelving units with different sizes, colours, finishes or materials.

WELCOME RECEPTION DESK

Versatile elegant design for contemporary reception areas

DESIGN BRIEF

Welcome glass reception desks are an elegant modern design suitable for contemporary reception areas. The Welcome reception desk is designed to meet the needs of businesses who look for a stylish contemporary design that is functional as well as aesthetically pleasing.

Welcome is available as a full-size, single piece or modular glass reception desk for flexible configuration. This contemporary desk design, with glass top, creates a clean, light appearance that complements many contemporary interior design styles. The glass panels or legs come in four distinctive style variations - walnut, cherry, dark wenge or stainless to match your decor.

The Welcome reception desk is available as a bespoke design to provide the optimum tailor-made solution for your reception area. For example, we can create units that are rectangular, L-shaped, curve-fronted with any colour glass (including frosted or black). To add a further touch of distinction, you have the option of printing, etching or engraving your corporate logo or any words or images of your choice on the glass top.

This glass reception desk also comes with the highly-practical option of cable management, which means that all of your technology cabling can be run discretely up through the pedestal legs or panels.

The bespoke shaped desk top can be made from a variety of toughened safety glass, conforming to BS 6206A. The columns or panels are simply screwed into bosses pre-bonded to the glass for stability and quick, easy assembly. This contemporary glass table features Futureglass' UV bonding technique for safety and long life.

The Welcome reception desk, like other glass contract furniture from Futureglass, is a superb example of contemporary British design, manufactured in the UK.

DUAL KNEE RECEPTION TABLE

Informal bistro style for the reception area

DESIGN BRIEF

This bistro-style glass-topped contract reception table offers informal style and recreates all the relaxed comfort and intimacy of the bistro in the office.

Dual Knee looks great in any reception area, with choice of three wood finishes or stainless steel columns linking the glass top and glass bases to create a clean, light appearance that complements any interior design style. Dual Knee comes in a number of distinctive style variations, with a choice of column materials in cherry, walnut, dark wenge or stainless steel to suit your decor. And with four sizes of

rectangular glass top, the Dual Knee table will fit any reception area.

The rectangular tabletop and base is made from clear, frosted or coloured toughened glass, conforming to BS 6206A. The columns are simply screwed into bosses pre-bonded to the glass for stability and quick, easy assembly. This contemporary glass table features Futureglass' UV bonding technique for safety and long life.

Dual Knee, like other glass contract furniture from Futureglass, is a superb example of contemporary British design, manufactured in the UK.

DESIGN BRIEF

If you're looking for stylish contemporary reception tables at an affordable price, check the Global Knee range of tables. They offer a level of individuality at a price that's unheard of.

The tables look great in any interior design scheme, with a column in matt nickel, bright chrome or minimalist white linking the glass top and metal base to create a clean, light appearance that complements any contemporary style. With a choice of seventeen different sizes, you'll find a Global Knee table for any size of reception area.

The tabletop is made from toughened glass, conforming to BS 6206A. The leg screws directly to bosses pre-bonded to the glass for stability and quick, easy assembly. This contemporary glass reception table features Futureglass' UV bonding technique for safety and long life.

Global Knee, like other glass contract furniture from Futureglass, is a superb example of contemporary British design, manufactured in the UK. Global Knee is a table that will change your view of contemporary reception furniture.

CHOOSE YOUR OPTIONS

Global Knee tables are available as standard units with a choice of finishes to matt nickel, bright chrome or minimalist white and a round, square or rectangular glass tabletop in seventeen sizes. All glass sizes can be customised with colours, sandblasting (plain, patterned), or even with a logo to suit.

CUSTOMISE... DIFFERENT SIZES, COLOURS

If you want even more choice, we can customise Global Knee with different sizes, colours, finishes or materials.

JEG RECEPTION TABLE

Compact elegant table for the smaller reception area

DESIGN BRIEF

This compact elegant glass reception table is ideal for the smaller reception area. If you're tight on space, but big on design ideas, Jeg is the table for you. This simple, attractive table combines practicality and aesthetics, without compromise.

You can choose from four types of column - walnut, cherry, dark wenge or stainless steel - to suit any contemporary interior design style and the table is available in fourteen sizes of square or rectangular top to suit the smallest reception area.

Despite its size, Jeg is built for long life. The tabletop is made from toughened glass, conforming to BS 6206A. The legs simply attach to the top by grub screws for stability and quick, easy assembly. This contemporary glass reception table features Futureglass' UV bonding technique for safety and long life.

Jeg, like other glass contract furniture from Futureglass, is a superb example of contemporary British design, manufactured in the UK. With Jeg, you've got an elegant compact solution where space is an issue.

CHOOSE YOUR OPTIONS

The Jeg table is available as a standard unit with a choice of finishes to cherry, walnut, dark wenge or stainless steel and fourteen sizes of square or rectangular tabletop. All glass sizes can be customised with colours, sandblasting (plain, patterned), or even with a logo to suit.

REMOTE RECEPTION TABLE

A light airy contemporary table

DESIGN BRIEF

Remote is a circular glass, single-pedestal reception table which can be used as a central feature in a reception area. This simple glass reception table with its classic central supporting column is a superb example of contemporary office furniture.

Remote offers a great level of style and individuality. Its clean glass lines work in any contemporary business environment and it comes in five distinctive style variations - walnut, cherry, dark wenge, stainless steel or spring - to suit your interior design style.

The two glass pieces are made from toughened glass, conforming to BS 6206A. The column simply screws into bosses pre-bonded to the glass for stability and quick, easy assembly. This contemporary glass reception table features Futureglass' UV bonding technique for safety and long life.

Remote, like other glass contract furniture from Futureglass, is a superb example of contemporary British design, manufactured in the UK.

CHOOSE YOUR OPTIONS

The Remote table is available as a standard unit with a choice of finishes to cherry, walnut, dark wenge or stainless steel, or spring and three sizes of tabletop. All glass sizes can be customised with colours, sandblasting (plain, patterned), or even with a logo to suit.

CUSTOMISE... DIFFERENT SIZES, COLOURS

If you want even more choice, we can customise the Remote table with different sizes, colours, finishes or materials.

SAINT RECEPTION TABLE

A table that makes a unique visual statement

DESIGN BRIEF

This unique glass reception table with its striking off-centre pedestal is a superb example of contemporary design. Saint features a stylish glass top and base, with a single pedestal in a range of finishes. Saint makes a unique visual statement of uncompromising quality in any reception area.

Like all Futureglass tables, Saint is a distinctive, high-quality unit that enhances any reception area with its light airy looks. You can choose from four column materials - cherry, walnut, dark wenge or stainless steel to match your interior design style.

And you can trust Saint for long life. The two toughened glass discs conform to BS 6206A. The central column simply screws into bosses pre-bonded to the glass for stability and quick, easy assembly. This contemporary glass reception table features Futureglass' UV bonding technique for safety and long life.

Saint, like other glass contract furniture from Futureglass, is a superb example of contemporary British design, manufactured in the UK. If you want a unique piece of reception furniture, take a closer look at the Saint.

CHOOSE YOUR OPTIONS

The Saint table is available as a standard unit with a choice of finishes to cherry, walnut, dark wenge or stainless steel, and two tabletop dimensions. All glass sizes can be customised with colours, sandblasting (plain, patterned), or even with a logo to suit.

SEMPLICE RECEPTION TABLE

An elegant minimalist table

DESIGN BRIEF

This minimalist bistro-style reception table recreates the informal style and intimacy of the bistro in your office. Elegant in its simplicity, it creates a stunning impression of uncompromising quality in any contemporary interior.

This inspirational table comes in four distinctive style variations wood finished to walnut, cherry, dark wenge or stainless steel to match your decor. And, with twelve sizes of top, the Semplice reception table will look right in any reception area.

The two glass pieces are made from toughened glass, conforming

to BS 6206A. The column simply screws into bosses pre-bonded to the glass for stability and quick, easy assembly. This contemporary glass table features Futureglass' UV bonding technique for safety and long life.

Semplice, like other glass contract furniture from Futureglass, is a superb example of contemporary British design, manufactured in the UK. If you like the minimalist look in your reception area, Semplice is the table for you.

CHOOSE YOUR OPTIONS

The Semplice Reception table is available as a standard unit with a choice of finishes to cherry, walnut, dark wenge or stainless steel, and twelve sizes of square or rectangular tabletop. All glass sizes can be customised with colours, sandblasting (plain, patterned), or even with a logo to suit.

SOCIAL RECEPTION TABLE

Sheer elegance in a minimalist table

DESIGN BRIEF

For sheer elegance in the office, it's hard to beat the Social reception table. A circular, single-pedestal design with a distinctive modern look, this minimalist piece is designed from highly-reflective glass disks with a slim central column. The table captures the full potential of reflected light from its polished surfaces and will complement any interior design style.

You can choose from five distinctive column materials - stainless steel, spring, or wood finished to cherry, walnut or dark wenge to match your design style. There are no less than nine tabletop sizes, so it will look right in any size of reception area.

The Social table won't let you down. Two toughened glass discs conform to BS 6206A. The column simply screws directly to bosses pre-bonded to the glass for stability and quick, easy assembly. This contemporary glass reception table features Futureglass' UV bonding technique for safety and long life.

Social, like other glass contract furniture from Futureglass, is a superb example of contemporary British design, manufactured in the UK. The Social reception table is a piece of furniture that really reflects contemporary style.

CHOOSE YOUR OPTIONS

The Social table is available as a standard unit with a choice of finishes to cherry, walnut, dark wenge, stainless steel, or spring and nine tabletop dimensions. All glass sizes can be customised with colours, sandblasting (plain, patterned), or even with a logo to suit.

CUSTOMISE... DIFFERENT SIZES, COLOURS

If you want even more choice, we can customise the Social table with different sizes, colours, finishes or materials.

DERBY DESK

Hand-crafted practicality for the office with style

DESIGN BRIEF

This contemporary glass desk is ideal for a stylish office. Derby Desk is a stunning piece of contemporary glass furniture for companies who don't want to compromise design and appearance in the office for the sake of functionality. This glass-topped desk is made from hand-crafted materials to the highest specification and is designed for the multi-purpose needs of the modern office.

Derby Desk provides a practical, highly-efficient workspace. The toughened glass desktop is robust and spacious enough for serious work, yet its clean lines blend unobtrusively, even in the most compact office areas. You can

choose from four distinctive style variations in walnut, cherry, dark wenge or stainless steel to match your interior design style. And, with twelve sizes of square or rectangular top, you can create a great looking work area in any size of office. The top is made from toughened glass, conforming to BS 6206A and the legs are simply attached to the top by grub screws for stability and quick, easy assembly. This contemporary glass table features Futureglass' UV bonding technique for safety and long life. Derby Desk, like other glass contract furniture from Futureglass, is a superb example of contemporary British design, manufactured in the UK. With Derby Desk, the office never looked so good.

CHOOSE YOUR OPTIONS

Derby Desking is available as a standard unit with a choice of finishes to cherry, walnut, dark wenge or stainless steel and twelve sizes of square or rectangular tabletop. All glass sizes can be customised with colours, sandblasting (plain, patterned), or even with a logo to suit.

MEET AND GREET DESK

Stylish solution for the contemporary workspace

DESIGN BRIEF

This contemporary glass office desk is ideal for a stylish workspace. Meet and Greet has the clean lines of contemporary glass furniture with the practicality of built-in cable management. This versatile piece of office furniture can be used for many roles. The sturdy glass table is big enough for a laptop or paperwork, or for a small meeting. Futureglass' clever cable management in the Meet and Greet means there are no untidy wires to clutter up the office.

Meet and Greet provides a practical, highly-efficient workspace. The toughened glass top is robust and

spacious enough for serious work, yet its clean lines blend unobtrusively, even in the most compact office areas.

Two toughened glass disks conform to BS 6206A. The strong stainless steel column simply screws into bosses pre-bonded to the glass so it's completely stable, and is quick and easy to assemble. This contemporary glass table features Futureglass' UV bonding technique for safety and long life.

Meet and Greet, like other glass contract furniture from Futureglass, is a superb example of contemporary British design, manufactured in the UK.

Stylish sophistication for the contemporary office

DESIGN BRIEF

This stylish glass console desk is ideal as a contemporary workspace. The desk has a light, airy look, but it's sturdy enough for day-to-day use in the busy office.

The desks look great in any conference room setting, with a glass top and adjustable feet for levelling on conical legs in matt nickel, bright chrome or minimalist white to create a clean, light appearance that complements any contemporary interior design style. They offer a level of individuality at a price that's unheard of in this range. With a choice of twenty four different sizes, you'll find a Slender Pin Elbow table for any size of office.

The desktop is made from toughened glass, conforming to BS 6206A. The legs screw directly to bosses pre-bonded to the glass for stability and quick, easy assembly. This contemporary glass desk features Futureglass' UV bonding technique for safety and long life.

Slender Pin Elbow, like other glass contract furniture from Futureglass, is a superb example of contemporary British design, manufactured in the UK.

CHOOSE YOUR OPTIONS

Slender Pin Elbow tables are available as standard units with matt nickel, bright chrome or minimalist white conical legs and round, square or rectangular glass tabletops in twenty four sizes.

CUSTOMISE... DIFFERENT SIZES, COLOURS

If you want even more choice, we can customise Slender Pin Elbow Desk units with different sizes, colours, finishes or materials.

STATE CONSOLE DESK

Hand-crafted console for demanding tastes

DESIGN BRIEF

This versatile glass console is ideal as a contemporary glass-topped desk for the office. State console can be used for many different roles in the office - desk, workspace for a laptop or paperwork, or small meeting table. This stylish glass console is ideal as a contemporary desk. State Console is designed in the UK for companies who have demanding tastes in design, but look for practical functionality as well.

The hand-crafted glass console is manufactured from natural materials to create an aesthetically-pleasing desk that offers the practicality of all Futureglass products and looks at home in any interior design scheme.

You can choose from four distinctive style variations finished to walnut, cherry, dark wenge or stainless steel to match your decor. And, with eleven sizes of square or rectangular top, the State console will fit into any size of office.

The top is made from toughened glass, conforming to BS 6206A. The legs simply attach to the glass by grub screws for stability and quick, easy assembly. This contemporary glass desk features Futureglass' UV bonding technique for safety and long life.

State console, like other glass contract furniture from Futureglass, is a superb example of contemporary British design, manufactured in the UK.

CHOOSE YOUR OPTIONS

State Console is available as a standard unit with a choice of finishes to cherry, walnut, dark wenge or stainless steel, and eleven sizes of square or rectangular top. All glass sizes can be customised with colours, sandblasting (plain, patterned), or even with a logo to suit.

CUSTOMISE... DIFFERENT SIZES, COLOURS

If you want even more choice, we can customise State console Desk units with different sizes, colours, finishes or materials.

DUAL ULTIMATE BOARDROOM TABLE

Versatile elegant design for contemporary or traditional boardrooms

DESIGN BRIEF

Dual Ultimate glass boardroom tables are an elegant modern design suitable for contemporary or traditional boardrooms and conference rooms. They are ideal for both formal board meetings or informal business meetings. The Dual Ultimate boardroom table is designed to meet the needs of businesses who look for a stylish contemporary design that is functional as well as aesthetically pleasing.

Dual Ultimate is available as a full-size, single piece glass boardroom table, but can also be split into two for smaller meetings. This contemporary table design, with slim central columns and glass top, creates a clean, light appearance that complements any interior design style. The table comes in four distinctive style variations with walnut, cherry, dark wenge or stainless steel central columns to match your decor.

The Dual Ultimate table is available in bespoke designs to provide the optimum tailor-made solution for your boardroom. For example, we can create tables that are rectangular, barrel shaped with any colour glass (including frosted or black). To add a further touch of distinction, you have the option of printing, etching or engraving your corporate logo or any words or images of your choice on the glass top.

This glass boardroom table also comes with the highly-practical option of cable management, which means that all of your technology cabling can be run discretely up through the pedestal legs.

The bespoke shaped table top is made from a variety of toughened safety glass, conforming to BS 6206A. The single column is simply screwed into bosses pre-bonded to the glass for stability and quick, easy assembly. This contemporary glass table features Futureglass' UV bonding technique for safety and long life.

The Dual Ultimate boardroom table, like other glass contract furniture from Futureglass, is a superb example of contemporary British design, manufactured in the UK.

DUAL CONFERENCE ROOM TABLE

Informal bistro style for full-size meeting tables

DESIGN BRIEF

This bistro-style glass-topped conference table is ideal if you like the informal style of bistro furniture, but you want a full-size conference table for those larger or more formal meetings. The Dual Conference Room table offers the relaxed informality of the bistro with the advantages of full-size meeting facilities. It is ideal as a stunning piece of contemporary glass conference room furniture and is a table for all meeting occasions.

Dual Conference Room table looks great in any room setting, with three wood or stainless steel columns linking the glass top and bases to

create a clean, light appearance that complements any contemporary interior design style. The tabletop and bases are made from toughened glass, conforming to BS 6206A. The legs are simply screwed into bosses pre-bonded to the glass for stability and quick, easy assembly. This contemporary glass table features Futureglass' UV bonding technique for safety and long life.

Dual Conference Room table, like other glass contract furniture from Futureglass, is a superb example of contemporary British design, manufactured in the UK.

CHOOSE YOUR OPTIONS

Dual Conference Room tables are available with clear, frosted or coloured glass with a choice of finishes to cherry, walnut, dark wenge or stainless steel. All glass sizes can be customised with colours, sandblasting (plain, patterned), or even with a logo to suit.

MEETING PLATFORM CONFERENCE ROOM TABLE

Informal meeting tables for compact areas

DESIGN BRIEF

This contemporary pedestal-style glass conference table is ideal for informal meetings in smaller rooms. Meeting Platform is a single pedestal glass-topped table that is practical and compact enough to fit unobtrusively in the smallest meeting room. Futureglass Meeting Platform is a British-designed table that offers an ideal solution for quick or ad hoc meetings.

The circular glass conference table features a central supporting column to create a light, airy table that works in any contemporary environment. Meeting Platform comes in five distinctive style variations – finished to cherry, walnut, dark wenge, stainless steel

or spring - to suit your decor and, with an extensive choice of nine tabletop sizes, Meeting Platform will fit comfortably into any size of office.

The two glass pieces are made from toughened glass, conforming to BS 6206A. The single leg is simply screwed into bosses pre-bonded to the glass for stability and quick, easy assembly. This contemporary glass table features Futureglass' UV bonding technique for safety and long life.

Meeting Platform, like other glass contract furniture from Futureglass, is a superb example of contemporary British design, manufactured in the UK.

CHOOSE YOUR OPTIONS

The Meeting Platform is available as a standard unit with a choice of finishes to cherry, walnut, dark wenge, stainless steel, or spring and nine sizes of tabletop. All glass sizes can be customised with colours, sandblasting (plain, patterned), or even with a logo to suit.

CUSTOMISE... DIFFERENT SIZES, COLOURS

If you want even more choice, we can customise Meeting Platform Conference Room Table units with different sizes, colours, finishes or materials.

SEMPLICE ELBOW CONFERENCE ROOM TABLE

Stylish table for informal meetings

DESIGN BRIEF

Semplice Elbow is a minimalist bistro-style table, designed to create an informal meeting area in contemporary interiors. It's an attractive simple table with clean lines that create impact to enhance the most compact meeting areas. A single column linking the glass top and base creates a clean, light appearance that complements any contemporary interior style.

Semplice Elbow comes in four distinctive style variation - stainless steel, walnut, cherry or dark wenge. With a choice of eleven sizes of square or rectangular top, Semplice Elbow fits comfortably into any size of office.

The table top is made from toughened glass, conforming to British Standard BS 6206A. The column simply screws into bosses pre-bonded to the glass for stability and quick, easy assembly.

Semplice Elbow, like other glass contract furniture from Futureglass, is a superb example of contemporary British design, manufactured in the UK.

CHOOSE YOUR OPTIONS

The Semplice Elbow conference room table is available as a standard unit with a choice of stainless steel, walnut, cherry or dark wenge columns and eleven sizes of tabletop.

➤ CREATE SHELVING FOR CONFERENCE ROOMS

Practical, stylish wall storage for lighter speakers or media

DESIGN BRIEF

This highly-versatile glass shelving solution provides ideal wall and corner storage for CDs, DVDs, light speakers and other conference room media. Create Shelving and Create Corner shelving solutions are a great looking range of wall storage units in clean contemporary glass lines that complement other Futureglass audio-visual storage units.

Like other glass storage units from Futureglass, Create Shelving and Create Corner shelving units offer an innovative solution that isn't just versatile, it's also great to look at. The glass and steel components create a minimal appearance and the cleanest lines of any glass wall shelving units on the market.

We've designed the range so you can arrange your media or speakers in many different ways and we give you a choice of styles, widths and arrangements. There is a choice of three different widths, and two widths for the Create Corner version, so you've got the flexibility to plan storage for loads up to 12 kg. You'll find Create Shelving is easy to install and you can attach it to a solid wall in just minutes to create a versatile, stylish storage system in the conference room.

Create Shelving, like other glass contract furniture from Futureglass, is a superb example of contemporary British design, manufactured in the UK.

CHOOSE YOUR OPTIONS

Create Shelving is available as a standard unit in a choice of three sizes. Create Corner is available in two sizes. You can also order an optional frosted or coloured glass finish.

CUSTOMISE... DIFFERENT SIZES, COLOURS

If you want even more choice, we can customise Create Shelving units with different sizes, colours, finishes or materials.

Ask your dealer for more details.

*Also look at our Favoured Media shelves.

FAVOURED MEDIA FOR CONFERENCE ROOMS

Clean, simple wall storage for light media or centre speakers

DESIGN BRIEF

Favoured Media shelving solutions are a great looking range of wall storage units in clean contemporary wire and glass lines that complement other Futureglass audio-visual storage units. This highly-versatile glass shelving solution provides ideal wall storage for CDs, DVDs, smaller speakers, centre speakers and other light media.

Favoured Media is designed in the UK by glass furniture specialists who really understand sound and vision. We've designed the range so you can arrange your media or speakers in many different ways and we give you a choice of styles,

widths and arrangements so you can accommodate a growing collection of conference room media.

Like other glass storage units from Futureglass, Favoured Media glass shelving units offer an innovative solution that isn't just versatile, it's also great to look at. The wire and glass components create a minimal appearance and the cleanest lines of any glass wall-shelving units on the market. You can place these attractive shelving units anywhere in the conference room.

The spacious shelves are made from polished safety glass to BS 6206A for safety and long life.

Favoured Media, like other glass contract furniture from Futureglass, is a superb example of contemporary British design, manufactured in the UK.

CHOOSE YOUR OPTIONS

Favoured Media shelving is available as a standard unit in a choice of three sizes. The centre speaker support version is available in five sizes.

CUSTOMISE... DIFFERENT SIZES, COLOURS

If you want even more choice, we can customise Favoured Media with different sizes, colours, finishes or materials.

CONTEMPORARY GLASS SIGNS FOR OFFICE INTERIORS AND EXTERIORS

DESIGN BRIEF

Futureglass contemporary glass signs for interior and exterior applications are ideal for reception areas, entrance signage and direction signs. They offer a visually-attractive, tough and durable solution for interior and exterior applications. Glass, with its clean lines and inherent design flexibility, is an ideal material for contemporary signage.

Using Futureglass UV bonding techniques you can mount the sign on a variety of materials. The Futureglass range represents the first commercially-available bonded glass signage. We are

confident of taking the process of UV bonding from indoor applications to the extremes of all year round exterior use.

The glass signs are available in a range of colours and finishes and they are suitable for screen printing, engraving or other techniques to give the impression you need. Futureglass signs are manufactured in the UK from high-quality materials for long life and easy maintenance.

Futureglass' aim is to introduce a comprehensive range of signage for business applications with a 7-day lead time. Currently we offer

project-based glass signage, which has been used by a number of prestigious locations and brand names.

► FUTUREGLASS BESPOKE GLASS BAR

Stylish, contemporary solution for hard-working bars

DESIGN BRIEF

The client's brief was to create a stylish, but highly practical solution for a contemporary bar. Futureglass designed a bespoke glass top bar in highly durable pre-etch glass that has a hard ceramic coating baked onto the surface. The result is a stylish contemporary design that is functional as well as creating the right image for customers.

This type of bar is available as a modular or single piece glass bar, suitable for any configuration and is designed to meet the needs of pubs, clubs, wine bars, hotels and restaurants who want to create a contemporary feel.

It is a bespoke solution suitable for all types of bar. The contemporary glass top represents a piece of stylish design in its own right, creating an attractive glass bar whose clean lines make a real impact in any environment. Like other Futureglass products, this stylish design, with glass top, creates a clean, light appearance that complements the contemporary bar.

The bespoke bar can be produced in many sizes and configurations to provide the optimum tailor-made solution for your premises. For example, we can create bars that are rectangular, L-shaped, curve-fronted with any colour glass, including frosted or black glass. Glass bars can be further enhanced by subtle background lighting that can be changed to create different moods.

The glass top can be further customised by engraving, printing or etching a logo, text, images or other graphics, adding a further touch of distinction. We can also supply shelving for glasses, bottles and optics in matching designs. This is a piece of contemporary glass furniture that adds real style to the bar area.

The bar top is made from clear, black or coloured toughened glass, conforming to BS 6206A. For the essential durability of a hard-working bar, the top features optional pre-etch glass that has a hard ceramic coating baked onto the surface. The support columns or panels are simply screwed into bosses pre-bonded to the glass for stability and quick, easy assembly. This contemporary glass bar features Futureglass' UV bonding technique for safety and long life. The glass top is easily cleaned to retain its good looks. The bespoke glass bar, like other glass contract furniture from Futureglass, is a superb example of contemporary British design, manufactured in the UK.

BESPOKE GLASS WORKTOP FOR METAL FILING CABINETS

Simple, practical solution with easy tool-free assembly

DESIGN BRIEF

The client's brief was to create a simple, stylish and highly practical solution for easy tool-free assembly to office filing and storage units. Futureglass designed a bespoke glass worktop in highly durable toughened glass that uses Futureglass' UV bonding techniques for simple assembly. The result is a stylish contemporary design that is functional and hard wearing as well as creating the right image for staff and customers.

This type of worktop is available as a single piece or modular glass unit, suitable for any size or configuration of multiple filing cabinets or storage units and is designed to meet the needs of offices that want to create a contemporary feel.

It is a bespoke solution suitable for all types of office. The contemporary glass top represents a piece of stylish design in its own right, creating an attractive glass worktop whose clean lines make a real impact in any office environment. Like other Futureglass products, this stylish design, with glass top, creates a clean, light appearance that complements the contemporary office.

The bespoke worktop can be produced in many sizes and configurations to provide the optimum tailor-made solution for your office. For example, we can create worktops that are rectangular, square or L-shaped for corner layouts with any colour glass, including frosted or black. This is a piece of contemporary glass design that adds real style to the office.

The worktop is made from clear, black or coloured toughened glass, conforming to BS 6206A for the essential durability of a hard working office. The worktop is designed for quick, simple tool free assembly using Futureglass' UV bonding techniques to provide an attractive, practical add-on solution. The glass top is easily cleaned to retain its good looks. The bespoke glass worktop, like other glass contract furniture from Futureglass, is a superb example of contemporary British design, manufactured in the UK.

► FLOATING GLASS DOWNLIGHTER

Innovative contemporary lighting solution

DESIGN BRIEF

The client's brief was to create a stylish lighting solution for a contemporary interior. Futureglass designed a floating glass downlighter with innovative design features that avoid drilling of the floating glass and eliminate the dark patches of traditional chrome plated standoffs. The result is a stylish contemporary design that is practical as well as elegant.

The floating glass downlighter is a registered design suitable for all types of interior. The contemporary glass downlighter represents a piece of stylish design in its own right, creating an attractive lighting unit whose clean lines make a real impact in any environment. Like other Futureglass products, this stylish design creates a clean, light appearance that complements the contemporary interior.

The downlighter can be produced in many sizes and configurations, with any colour glass, including frosted. This is a piece of contemporary glass design that is suitable for domestic, retail, hospitality or office environments and adds real style to any interior.

The downlighter is made from lighter specification floating glass with glass rods UV bonded to the bezel to give non-drill fixing and eliminate dark patches. The glass downlighter, like other glass contract furniture from Futureglass, is a superb example of contemporary British design, manufactured in the UK.

CHOOSE YOUR OPTIONS

Please contact Futureglass for the glass options best suited to your project.

Floating glass downlighter at a glance

BESPOKE MANIFESTATION IN TABLES

Corporate identity on glass reception desks or boardroom tables

DESIGN BRIEF

Make reception desks, boardroom tables and conference tables more distinctive with the addition of bespoke company logos, text, images or other graphics to the glass desk or table top. Futureglass can create this bespoke identity by engraving, printing, etching or sandblasting the images, adding a further touch of distinction. These manifestations help to reinforce your corporate identity and create a welcoming impression for both employees and visitors.

The images can be created in colours to match a corporate identity or other interior design features, using a combination of colours from the standard Futureglass palette, or matching a specific RAL colour or BS colour number.

This is a piece of contemporary design that adds real style to any interior. And it gives you infinite choice - take your pick from different bespoke colours, finishes or materials.

CHOOSE YOUR OPTIONS

Please contact Futureglass for the options best suited to your project.

Bespoke manifestation at a glance

► BESPOKE PIN FRAME GLASS TABLES

Bespoke support for larger glass topped tables

DESIGN BRIEF

Contemporary glass tables from Futureglass are available with bespoke frames fitted to standard legs. These bespoke frames, available in any size, configuration, colour or finish, provide additional support for larger glass table top sizes. Just look up our current manufacturing capabilities on www.futureglass.com.

The bespoke glass table top frame can be produced in many sizes and configurations to provide the optimum tailor-made solution for any interior. For example, we can create frames for table tops that are rectangular, L-shaped, or round. The frames simply screw into existing standard legs for stability and quick, easy assembly.
